

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in original, tightly closed containers below 30°C (86°F) and above 0°C (32°F) in a secure area inaccessible to children and away from food or feed.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Commercial and Industrial Containers

Container Handling: Nonrefillable container. Do not reuse or refill this container.

Container Disposal:

For containers 5 gallons or less: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer the recycling if available or puncture and dispose in a sanitary landfill, or by other procedures approved by state and local authorities.

For containers greater than 5 gallons: Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Repeat this procedure two

ENVIRONMENTAL HAZARDS

Commercial and Industrial Uses: This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

De-activation may be required during clean up if a spill occurs. De-activation of Con^{MIC}Shield[®] HD can be achieved by the addition of anionic surfactant (such as soap, sulfonates, sulfates) in

FIRST AID:

Have the product container or label with you when calling a poison control center or a doctor, or going for treatment.

IF IN EYES:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing.
- Call poison control center or doctor for treatment advice.

IF INHALED:

- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

IF ON SKIN:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

IF SWALLOWED:

- Call a poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by a poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

Con^{MIC}Shield[®] HD
MICROBIOSTATIC AGENT *

ACTIVE INGREDIENT:

3-(trihydroxysilyl) propyldimethyl octadecyl ammonium chloride **1.5%**

OTHER INGREDIENTS: **98.5%**

KEEP OUT OF REACH OF CHILDREN

EPA Reg. No. 75174-7-73453 EPA Est. No. 090875-IL-001

*A microbiostatic agent is an agent that inhibits the growth of odor causing bacteria, bacteria which cause staining and discoloration. This product does not protect users or others against food-borne or disease-causing bacteria.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caution

Causes moderate eye irritation. Harmful if absorbed through skin or inhaled. Do not get in eyes. Avoid contact with skin, eyes or clothing and avoid breathing vapor. Wear protective eyewear (goggles or face shield). Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash before reuse.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Wear protective eyewear (goggles or face shield) and gloves when using this product. Dry treated areas and articles such as clothing before use. Remove children and pets from treated area until completely dry.

Con^{MIC}Shield[®] HD when used as a concrete additive is added directly during concrete preparation. Use 20 fluid ounces Con^{MIC}Shield[®] HD per each 3 to 5 cubic feet of concrete. Add during the mixing of the concrete. Use 20 fluid ounces Con^{MIC}Shield[®] HD per each 100 to 200 ounces of potable water for mortar mixes. Addition of Con^{MIC}Shield[®] HD reduces deterioration of concrete in sanitary sewers by inhibiting microbiologically induced corrosion.

NET CONTENTS: 5 55 275 gal

DIRECTIONS FOR USE (Continued):

The active ingredient in Con^{MIC}Shield[®] HD is effective against odor causing bacteria, bacteria which cause staining and discoloration, as a static agent.

Approved Commercial and Industrial Applications:

- Concrete additive for sewer pipes, manholes and concrete sewer structures; (*Not to be used in treatment of storm drains*)
- Concrete additive for repair and renewal of sewer pipes and manholes and concrete sewer structures; (*Not to be used in treatment of storm drains*)
- Con^{MIC}Shield[®] HD is an antimicrobial agent effective against bacteria which cause staining and discoloration.
- Con^{MIC}Shield[®] HD, an antimicrobial agent, inhibits the growth of odor causing bacteria.
- Imparts microbiostatic properties.
- Unscented.
- Provides an invisible microbiostatic coating to inhibit the growth of odor causing bacteria, bacteria, which cause staining, and discoloration.
- Prevents deterioration caused by bacteria.
- Inhibits deterioration caused by bacteria.
- Resists development of microbial odors, stains and discoloration due to bacteria.
- Provides/creates an invisible barrier to inhibit the growth of odor causing bacteria, bacteria
